**TO WHOM IT MAY CONCERN**

This is to certify that Evelyn Caviedes Arciniegas successfully worked on and completed a software development and cloud computing-based project with me. I must say that I am thrilled to see the dedication and hard work that Evelyn has put in the project.

The project focused on creating real-time detections in cloud infrastructure using Cloud Custodian, an open-source cloud security tool. The project showcased Evelyn's exceptional technical skills, as well as the ability to work independently and manage a complex project from start to finish. The innovative approach to the project and attention to detail were truly impressive. Evelyn demonstrated a deep understanding of software development and cloud computing, which allowed her to deliver a high-quality product.

The project has contributed to the enhancement of security monitoring in cloud infrastructure. I look forward to working with her in the future.

It was a delight to work with Evelyn and I wish her success in the future endeavors. If you have any questions regarding the project and Evelyn, feel free to reach out to me.

Sincerely,

Qasim Ali
